BASEBALL & SOFTBALL WHAT'S NEXT after registration?

EVERY Player must attend the skill's evaluation to be graded. This is not a tryout. All children who register will play on a team. The skills evaluation is to attempt to grade each child's skill level so that the talent can be divided evenly onto the teams. The coaches need the NEW and RETURNING players to be graded. Players who do not show up for skills evaluations will be placed back in the draft. You will be notified at the skill's evaluation if coaches are needed in your age group. Please be early to your site on skill's day. You will check in with the staff person and your child will be given a number to wear on their arm during the skill's evaluation. The skill's evaluation should last no more than 1 1/2 hours. *The baseball players should hear from a coach by March 3rd. The girls' softball players should hear from a coach by March 3rd.* If you have not gotten a call by this date, please contact the athletic department as soon as possible. We may need a coach for your child's team.

Items needed for skills evaluation: a GLOVE and wear TENNIS SHOES or RUBBER CLEATS.
